Abi Sarasan

Senior IT Administrator

Dubai, United Arab Emirates · sarasanabi@gmail.com · linkedin.com/in/abi-sarasan-

PROFILE

My core expertise spans Windows Server, Active Directory, Microsoft 365 and Exchange hybrid environments, Azure, and modern device management with Intune, backed by hands-on work in hybrid Entra ID architectures.

I am expanding into AI-driven automation, using n8n and Claude to streamline IT workflows, reduce manual overhead, and build smarter helpdesk and support systems. Combining traditional infrastructure strength with automation and AI is where I see enterprise IT heading.

CORE SKILLS

Microsoft Intune · Entra ID · Microsoft 365 · Exchange Hybrid · Azure · Windows Server · Active Directory · Fortinet · Microsoft Defender · PowerShell · n8n · Claude · AWS · VMware · ManageEngine · Jira · ITIL

EXPERIENCE

Senior Information Technology Administrator Apr 2024 – Present

News Group International · Dubai, UAE · On-site

- Manage tickets in ManageEngine ServiceDesk Plus and Jira to strict SLAs following ITIL.
- Administer multi-site Windows Server, Active Directory, Entra ID, DNS and DHCP.
- Configure Fortinet firewalls (HA, VPN tunnels) and Microsoft Defender endpoint security.
- Lead Intune device management and oversee Microsoft 365 and Windows 365.
- Build AI and n8n workflows for early threat detection and faster incident response.

Lead Technical Specialist Oct 2022 – Mar 2024

F9 Infotech · UAE, India, Canada · On-site

- First technical hire: built the entire technical infrastructure from the ground up.
- Recruited and interviewed the IT team, then trained them into next-era IT engineers.
- Scaled IT to support company growth to ₹100 crore and expansion into new geographies (UAE, India, Canada).
- Delivered end-to-end cybersecurity operations and IT infrastructure security.
- Ran vulnerability assessments on websites and digital assets for proactive remediation.
- Automated security administration, reporting and threat hunting with PowerShell.
- Led patching, compliance audits and security documentation for audit readiness.

Information Technology Administrator Nov 2021 – Oct 2022

Syntrasol General Trading · United Arab Emirates

- Managed HP ProLiant servers: deployment, monitoring, patching and disaster recovery.
- Administered Office 365: Azure AD lifecycle, Exchange Online, Teams, SharePoint, OneDrive.
- Enforced mobile compliance with AirWatch (Workspace ONE) and ran tape backup workflows.

Information Technology Administrator Dec 2019 – Oct 2022

Lockton Middle East North Africa · Dubai, UAE · On-site

- Sole IT administrator across three sites (UAE, Jordan, Egypt), recognised as a vital worker during the pandemic.
- Managed Intune MDM, Microsoft 365, Azure AD and VMware, with AWS certification.
- Handled identity and access via ManageEngine AD Manager and monthly AD Audit reporting.

VDI Administrator Nov 2014 – Dec 2015

EZDC Automation · Chennai, India

- Services partner to VMware PSO (ASEAN) on pre- and post-sales engagements.
- Consulted on vSphere and Horizon View design, deployment and documentation.

FEATURED PROJECTS

- **SmartLedger** (AI-Powered Expense Automation): An AI workflow that extracts and validates receipt data into structured financial reports, cutting manual entry and improving accuracy.
- **Agentic Security Response** (n8n + Claude): A prototype that auto-classifies suspicious email and account activity, flags mailbox rule anomalies and drafts incident summaries to shrink time-to-containment.
- **VMware Horizon VDI Delivery** (VMware PSO, ASEAN): Design, installation and configuration of Horizon View deployments (up to 100 desktops), including a Singapore petroleum client engagement.
